

Remote connections to the Biooptics Workstations

For remote connection to the Biooptics Workstations please use remoteapps.vbc.ac.at

Enter your credentials and choose "Remote Desktop Connection"

Enter the computer name (pcw...) and your normal VN2-password to connect.

The computer names of the Biooptics workstations are visible in PPMS or on the BioOptics Homepage ([Intranet - IMP/IMBA - Workstations](#))

It is mandatory to reserve the workstation (and some softwares) in the booking system!

To book/get access to the workstations please fill out a workstation request form in PPMS
